What is JSTalks Bulgaria?

`js.talks("Bulgaria") {`

is an one day event with sessions dedicated to all that is JavaScript. It is a chance for the local community to immerse in their favorite web technologies.

Much like the largely successful JavaScript Saturday and jQuery Bulgaria, but set out to be the largest Web Client community event in Bulgaria!

`}`

Off to a great start

- After a few successful “Saturday” format events across different platforms, the JavaScript event received major interest. jQuery Bulgaria followed with increased popularity.
- We’ve also been taking part in local and **international JS-related events**.
- `js.talks()`; will inherit and expand on that.
